Volunteers are an important part of every community.
Research has found that even young children's
participation in community service programs can make
important contributions to their character development.
Young people involved in volunteer activities help meet
vital community needs as they become responsible and
engaged citizens.

Most high schools now require service learning hours for
graduation and almost all colleges look for a consistent
record of service that includes volunteer work hours,
involvement in civic activities, and internships. Porter
Youth Center's Boys and Girls Club gives two \$1000.00
scholarship every June to local military connected
students who have completed at least 100 volunteer
hours in their community.

As parents a good first step is finding a volunteer activity
that you and your child can participate in together.
Volunteering benefits everyone!

High school seniors are preparing college applications
and application essays, looking for financial aid, and
preparing to make the big decision. Some last minute
reminders:

Complete any service learning requirements—colleges
look for your community volunteer activities.

Finalize your college application essay—ask an English
teacher or counselor to evaluate it.

Pick up free application for federal student aid
(FAFSA) in Jan/Feb. Must be accepted into college in
order to be considered for financial aid. Check due dates
for Financial Aid applications—parents should plan to
file income tax forms in early Jan/Feb—the tax
information is needed to complete many financial aid
applications.

You've gotten this far—don't let deadlines trip you up
now.
